Hello, ELIXIR learner

ELITMa

Expanding and consolidating a course portfolio for ELIXIR Training in Management

The ELITMa (ELIXIR Training in Management) programme addresses the growing need to empower ELIXIR Node staff with essential skills and knowledge. Initiated in 2019 and further developed through the ELIXIR-CONVERGE, ELIXIR-STEERS and PeoplePulse projects, ELITMa delivers modular training courses focused on operations and management, including technical management

Experts from the Nodes develop, lead and deliver ELITMa modules to benefit all ELIXIR members. Each module has a dedicated contact person at the ELIXIR Hub, to ensure alignment of strategic goals between the Hub and Nodes. As part of the PeoplePulse Project, an ELITMa Steering Group will be set up, with representatives from the Hub and Nodes. This group will oversee and guide the content, development and integration of the growing ELITMa portfolio.

10 modules

Connections with ELIXIR-STEERS, People Pulse, Training Platform, OATEN, SPARKLE and Professionalising Careers in Research Infrastructures Focus Group

8 courses delivered for 6 modules

ELITMa module overview

ELITMa offers a modular, flexible curriculum tailored to the diverse roles within ELIXIR Nodes. Each standalone module focuses on practical tools, skills, and best practices relevant to specific functions. Participants can select modules based on their individual needs and prior experience, ensuring a personalised and efficient learning path.

1. ELIXIR introduction and governance

status: delivered in 2023 | delivered in 2025

description: This module introduces European and global research infrastructures, including regulatory bodies like ESFRI. It focuses on ELIXIR's role within this landscape, focusing on the five-year scientific programme's mission and operations.

module leads: Ana Teresa Freitas (ELIXIR PT), Ivana Versic (Hub)

2. Node data management strategy

status: delivered in 2023 | delivered in 2025

description: Designed for Node Coordinators and data stewards/managers, this module supports the development of robust data management strategies within ELIXIR Nodes, focusing on best practices from ELIXIR's data management tools and services.

module leads: Mijke Jetten (ELIXIR NL), Celia van Gelder (ELIXIR NL), Fabio Liberante (Hub), RDM Community

3. Strategic management

status: delivered in 2023 | on hold

description: Introduces lightweight tools and frameworks for monitoring and tracking strategic objectives using quantitative and qualitative indicators.

module leads: Juan Arenas (Hub)

4. Leading teams in ELIXIR

status: blueprint ready | looking for module developers

description: Aimed at ELIXIR Node staff and internal project leaders, this module develops leadership and team management skills

module leads: Ivana Versic (Hub)

5. Legal and ethical issues

status: in progress for 2026

description: This workshop addresses ethical, legal and social issues (ELSI) faced by ELIXIR Nodes, equipping participants with practical tools and strategies to navigate these challenges.

module leads: Louiza Kalokairinou, Vera Herkommer (Hub)

6. Communication

status: blueprint ready | under development in People Pulse

description: Supports ELIXIR members on effective internal communication, a cornerstone for organisational growth.

module leads: Xènia Pérez Sitjà (ELIXIR UK), Elaine Harrison (Hub)

7. Financial management

status: delivered in 2023 | on hold

description: Participants will learn theoretical and practical financial management techniques for ELIXIR Nodes, including internal control and risk management.

module leads: Juan Arenas (Hub)

8. Project management

status: delivered in 2023 | on hold

description: Promotes project management best practices and provides a flexible, open-access tool adaptable for each Node's requirements

module leads: Juan Arenas (Hub)

9. Impact

status: delivered in 2024 | under development in People Pulse

description: Understand methods for measuring and demonstrating impact within ELIXIR Nodes in collaboration with STEERS

module leads: Luciana Peixoto (ELIXIR PT), Francesca de Leo (ELIXIR IT), Ingeborg Winge (ELIXIR NO)

10. Carbon footprint

status: under development in ELIXIR STEERS & SPARKLE

description: Learn techniques for measuring and reducing the carbon footprint of ELIXIR activities

module leads: Ana Teresa Freitas (ELIXIR PT), Luciana Peixoto (ELIXIR PT), Francesca de Leo (ELIXIR IT), Ingeborg Winge (ELIXIR NO)

Authors

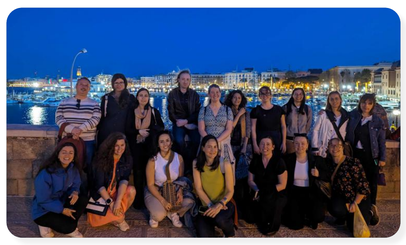
Celia van Gelder (ELIXIR-NL), Juan Arenas (ELIXIR Hub), Ana Teresa Freitas (ELIXIR-PT), Sushma Grellscheid (ELIXIR-NO), Elaine Harrison (ELIXIR Hub), Vera Herkommer (ELIXIR Hub), Mijke Jetten (ELIXIR-NL), Louiza Kalokairinou (ELIXIR Hub), Francesca de Leo (ELIXIR-IT), Fabio Liberante (ELIXIR Hub), Luciana Peixoto (ELIXIR-PT), Xènia Pérez Sitjà (ELIXIR-UK), Anna Strachotova (ELIXIR-CZ), Ivana Versic (ELIXIR Hub), Ingeborg Winge (ELIXIR-NO)

Summary

ELITMa addresses two of the ambitions of the People Tier in the ELIXIR Scientific Programme 2024-28: that Nodes are well equipped to efficiently manage and run a distributed infrastructure; and that ELIXIR technical and scientific staff have the skills needed for operational excellence and impact. In 2025, an ELITMa Steering Group, with representatives from the Hub and Nodes, will oversee the programme's content, development and integration.

Recent courses

Node data management strategy
Tartu, Estonia
19-22 May 2025



Impact & More workshop
Bari, Italy
8-10 April 2024

Node data management strategy
Esspo, Finland
28-29 June 2023

OATEN-ELITma: Financial and project management
Online, AHM 23 and Lisbon, Portugal
January-May 2023
