ELIXIR Estonia: A Year of Growth, Progress, and Impact

NODE UPDATES

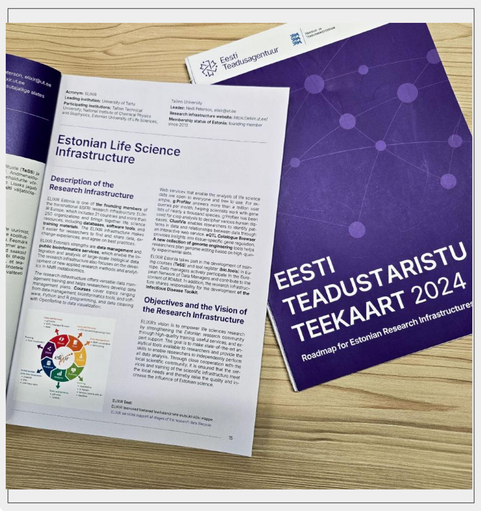
Node poster

New coordinators

Diana Pilvar
TrC

Uku Raudvere
TeC

Funding



Research Infrastructure of National Importance Funding (2025-2029)

Estonian Research Infrastructure Roadmap 2024

SERVICES NEW

Collection of genome engineering tools:

- FORECasT-BE (base editing)
- FORECasT-repair (providing support for CRISPR/Cas9)

g:Profiler milestones

- 2019 article - 5K citations
- 6 articles - 10K citations
- 18 years of continuous service

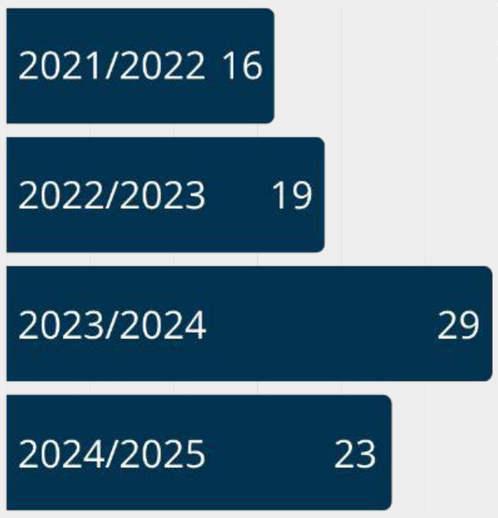
PROTOBIOS
life sciences

Industry collaboration

Protobios (biotechnology company) - developing software and automating workflows

TRAINING

Courses held

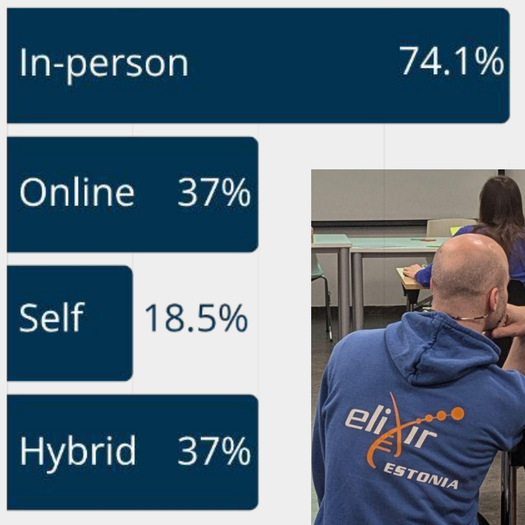


>1500 people registered
>1100 people attended (73%)
>550 gave feedback (50%)

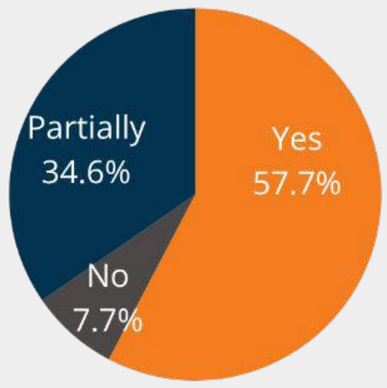
- 20 courses per year
  - Exploratory Data Analysis NEW
  - Markdown
  - Notion
  - Prompting
  - R statistics
- 6 courses in ELIXIR-CZ

Impact and value survey

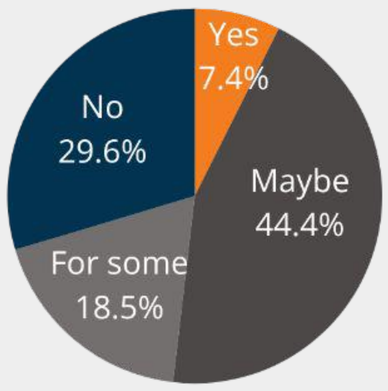
Preferred course format



Applying the knowledge gained



Attendance if there would have been a fee



"Thank you to the presenter for the well-thought-out and interesting presentation! Your common-sense level of explanations (of fairly complex topics) and overall expressivity really enhanced the experience."

Genomic Data Infrastructure

Estonian Node development in progress
https://gdi.ut.ee/

ELITMa Module 2 and EIP meetings

- 4 days of workshops in Tartu
- 16 Nodes represented
- Continued work on Node Data Management Maturity Model
