Background

The ELIXIR Research Data Management (RDM) Trainer Network brings together individuals from national (ELIXIR Nodes) and local research-performing organisations that are committed to promoting good practices in data management among researchers.

The Network originated from the Horizon 2020 ELIXIR-CONVERGE project, WP2 (Training and Capacity Building). As part of the project, the Network has already organised several informational gatherings and a series of hackathons around data management plans, RDM training, reproducibility and FAIR data.

Currently, the Network is cemented on three major pillars:

1. **Establish and sustain the Network**, via links with the ELIXIR Europe strategy, such as embedding the activities in the ELIXIR RDM Community
1. **Organise knowledge-sharing activities**, including regular gatherings and events
1. **Capture and communicate** the outcomes and impact

The team behind the Network

Daniel Wibberg
Forschungszentrum Jülich GmbH, ELIXIR-DE

Nazeefa Fatima
University of Oslo, ELIXIR-Norway

Xenia Perez Sitja
University of Bradford, ELIXIR-UK

Helena Schnitzer
Forschungszentrum Jülich GmbH, ELIXIR-DE

Nils-Christian Lübke
Forschungszentrum Jülich GmbH, ELIXIR-DE

Krzysztof Poterlowicz
University of Bradford, ELIXIR-UK

Robert Andrews
Cardiff University, ELIXIR-UK

Future plans and sustainability

This Network sits at the core of the newly established ELIXIR RDM Community

The ELIXIR RDM Community will host an Expert and this Trainer Network to cover best practices and capacity building in RDM across ELIXIR and beyond.

The ELIXIR RDM Trainer Network will also stay tightly connected to the ELIXIR Training Platform and other ELIXIR Platforms and Communities.

The RDM Trainer Network activities are part of ELIXIR-CONVERGE WP2, which received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 871075.

What the Network offers

Ways to get involved

As a member, you can decide how you would like to get involved and your level of commitment. This could be attending the network calls, contributing to information shared in newsletters, generating training materials or proposing community-building events.

- Receive regular newsletter
- Share knowledge and expertise with an active forum and mailing list
- Gain training skills and methods with Train the Trainer courses
- Attend the Network events and calls
- Promote and share best practices
- Co-organise training events in RDM
- Join training events to improve your RDM skills and knowledge
- Co-develop training materials

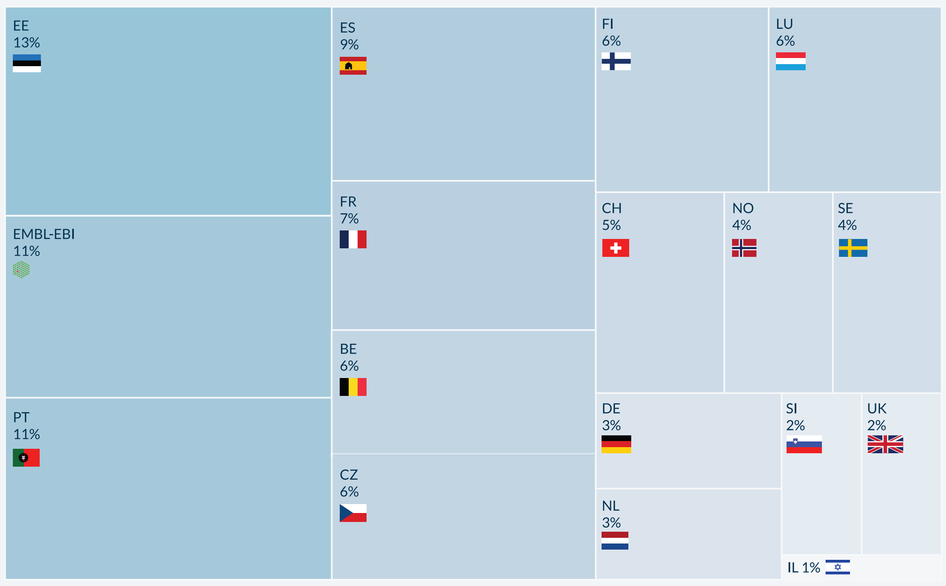
Who is this for

The ELIXIR RDM Trainer Network is designed for anyone passionate about RDM training in the life sciences, such as:

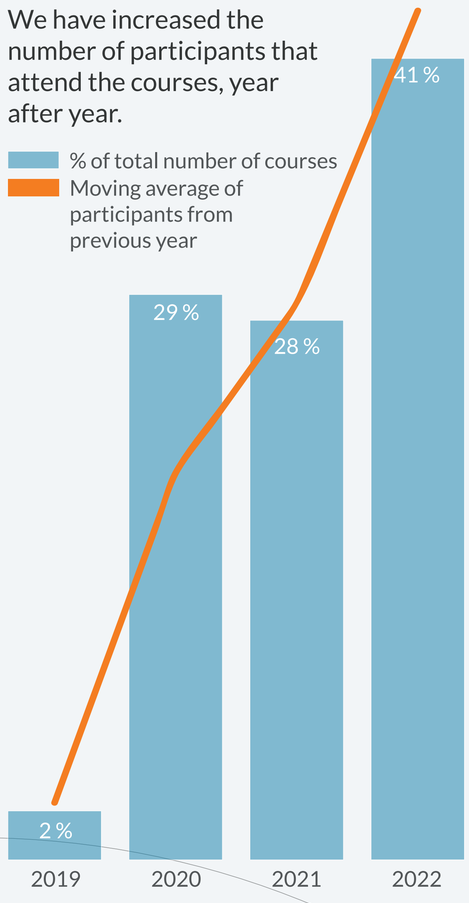
- Researchers at all career stages, including PhD students
- Data Stewards
- Core support (Bio)informaticians
- Technicians
- Facility Operators
- Research Software Engineers
- IT Support Staff
- Data Policy Officers

What we have accomplished so far

Over the last three years, we have delivered courses across several ELIXIR Nodes.



We have increased the number of participants that attend the courses, year after year.



We have delivered courses for multiple target audiences, with a particular focus on beginner level.
