ELIXIR industry engagement achievements over the last 10-years

Despoina Sousoni, Yun-Yun Tseng, Erika Balsyte, Andrew Smith

ELIXIR All Hands , 5-8 June 2023, Dublin, Ireland

Over the last 10 years, ELIXIR developed an industry engagement programme for raising awareness of the bioinformatics and bio-data solutions that ELIXIR members develop, with the aim to **bridge the gap between industry and academia** and to support the **creation of an open innovation ecosystem** in the life sciences.

Achievements over the years:

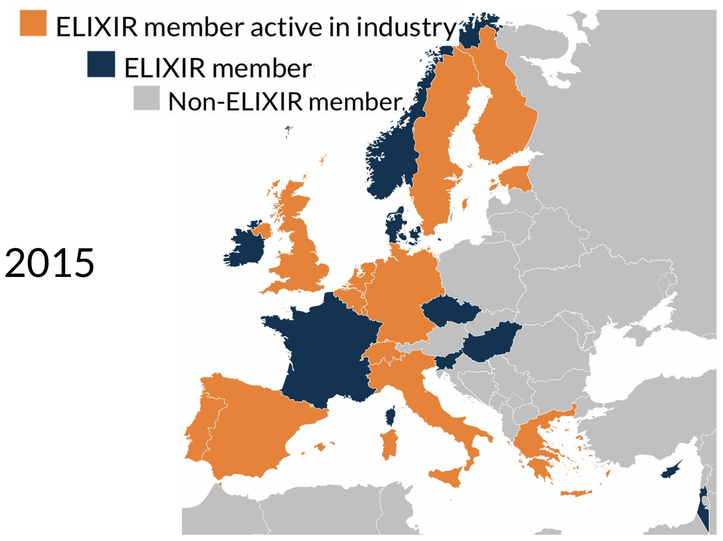
- **21 Industry Forums** over 10 years with more than **1800 total participants** with 37% of the participants being from industry (**representing 320 companies;** 15% of companies joined multiple ELIXIR events).
  - **12 Nodes** hosted Forums on a diversity of themes mainly on Data and Health related topics.
  - With more than 700 participants joining the events through **virtual access**
- **7 European projects** supporting industry engagement activities

  excelerate, FAIRplus, elixir CONVERGE — Capacity building through workshops, events, guidelines and dissemination actions

  CORBEL — Innovation Office Team: Templates for collaboration and technology transfer agreements
- **5 publications,** including **3 reports** on the role of ELIXIR resources in supporting life sciences innovation (2018, 2019, 2021). In 2020, ELIXIR published an Industry strategy and in 2022, a guide on "How to engage with industry"
- **Membership** in life science networks:

  CEBR COUNCIL OF EUROPEAN BIOREGIONS — regional and national clusters that support SMEs and research centres across Europe.

  Pistoia Alliance — organisation with member companies (including top global pharmas, research groups, technology and solution providers) working on common issues eliminating barriers to innovation.
- **Communication** with industry through a newsletter with **1188 subscribers** (34% open rate) and more than **230 companies** have a close connection with ELIXIR.
  - **93 industry vacancies** have been published in the ELIXIR portal over the last three years.
- **Guidance** in life science networks:
  - **Industry advisory committee**, 12 meetings since 2015
  - Innovation and industry **Focus Group** (ONLY for ELIXIR members). Join the bimonthly meetings and exchange experiences in industry engagements



Up next:

- 2023 Pilot Scheme: Nodes Industry engagement Days (**Open call** for Nodes with emerging interest in industry engagement
- BioTechX2023 panel discussion and Bioinformatic Industry Forum on "**Trusted Research Environments**"
- December 2023: Industry engagement Forum as part of EBY-COVID and **patent analysis** of references of COVID-19 Data Portal
- Pathos — **Impact Pathways** of Open Science Elixir case study "How open bioinformatics resources foster innovation in industry"
- RItrain PLUS — Management training programme: **September course** "Innovation, Entrepreneurship and Engagement with Industry"
- Mapping exercise of **industry landscape throughout the genomic cycle**.
- Upcoming project on **Open software and workflows**: value for industry and innovation

- **13 Nodes** (60% of total) and **6 communities** (37.5% of total) with industry activities, including:
  - **6 Knowledge exchange projects** with industry partners; 2 projects taking place within 2023 and an open call for one more project
  - **5 Biohackathon industry projects** with 2 industry projects in 2023
