Galaxy EUROPE

Galaxy Social

- Democratise social media access and enable review and coordination
- Easy to contribute new posts (simple markdown)
- Linting of posts to assist reviews
- Preview feature on the Pull-request
- Current support for Bluesky, Mastodon, Matrix, and Slack
- Customizable plugins for expanded functionality
- Run locally or in another platforms like gitlab
- Easy to contribute new plugins (written in Python)

https://github.com/usegalaxy-eu/galaxy-social

Overview

Galaxy Social is a collaborative project aimed at democratizing social media access to assist our outreach group. It encourages editing, peer-review, and collaboration on social media posts.

Example input from Galaxy feed bot

```
---
media:
 - bluesky
 - mastodon
 - matrix
 - slack

mentions:
 bluesky:
  - galaxyproject.bsky.social
 mastodon:
  - galaxyfreiburg@bawü.social

hashtags:
 bluesky:
  - usegalaxy
  - GalaxyCommunity
 mastodon:
  - usegalaxy
---

```

Input bots

Automate retrieve from feeds, YouTube, GitHub, and etc.

Collaborators

Create customized and manual posts by users to distribute.

Traditional Method

Pull Request

Preview

Review

Galaxy Social

Mastodon

Decentralized social network fostering community interaction.

Bluesky

Future-focused decentralized social media platform.

other social media platforms

Possible to add more social media platforms as plugin. Linkedin is in progress.

Slack

Collaboration hub for seamless team communication.

Matrix

Secure decentralized communication network.
