Redefining Educational Excellence: The 2024 Perspective of the de.NBI / ELIXIR-DE Training Platform

ELIXIR All Hands , 10-12 June 2024, Uppsala, Sweden

ELIXIR-DE training 2016-2021

ELIXIR-DE training 2022-2023

BioHackathon Germany 12.-16.12.2022

BioHackathon Germany 11.-15.12.2023

de.NBI Summer School [2023] Bio Data Analysis for Life Sciences

de.NBI Spring School [2023] Data management

ELIXIR-DE training in 2024

By strengthening community support for trainers and users, the ELIXIR-DE training platform has made remarkable progress in 2024. It has strategically identified and addressed existing gaps within the network. Furthermore, it has broadened its educational offerings to include a wide range of new topics:

- Training collaborations in Germany (e.g. with NFDI & BioNT) and Europe (e.g. with Austria and Luxemburg)
- Trainer community building, e.g. RDM trainer network, Training Clinic, de.NBI SIG Training, PHENET SIG Training
- Organisation of large training events, e.g. BioHackathon Germany and de.NBI Spring School
- Organisation of Train-the-Trainer courses in Germany and Europe
- Developing new training course formats, e.g. Training Clinic
- Advancement of existing data management training courses, e.g. our RDM basics course

de.NBI / ELIXIR-DE training events by the training coordination in 2024

Training event	Date
Maximizing the Potential of Agricultural Research Data: A Guide to Crafting an Effective DMP	15 February 2024
de.NBI Spring School 2024 - Bioinformatics for Microbial Omics	13-18 March 2024
Training Clinic – May 2024	03 May 2024
Checking and Increasing the Visibility of your Publications	08 May 2024
Galaxy Microbial Genomics Course	14-15 May 2024
Training Clinic – June 2024	21 June 2024
ELIXIR Luxembourg & ELIXIR Germany Train the Trainer	03-05 July 2024
Optimizing Microbial Research Data Utilization: Integrating Electronic Lab Notebooks into Your Data Management Strategy	27 & 29 August 2024
Learn the Essentials of Research Data Management and Microbial Genome Submissions - ECCB2024	17 September 2024
Learn the Essentials of Research Data Management and Data Management Plans – GCB 2024	30 September 2024
Maximizing the Potential of Agricultural Research Data: A Guide to Crafting a DMPs and Using ELNs	08-10 October 2024
3rd BioHackathon Germany	09-13 December 2024

BioHackathon Germany 2024

BioHackathon Germany 2022
Lutherstadt Wittenberg
12-16 December 2022
11 projects (10 onsite, 1 online)
150 registered participants (15% from all over the world)
77 onsite participants

BioHackathon Germany 2023
Bielefeld
11-15 December 2023
11 projects (10 onsite, 1 online)
214 registered participants (20% from all over the world)
85 onsite participants

BioHackathon Germany 09.-13.12.2024

Application Deadline: 1st July
