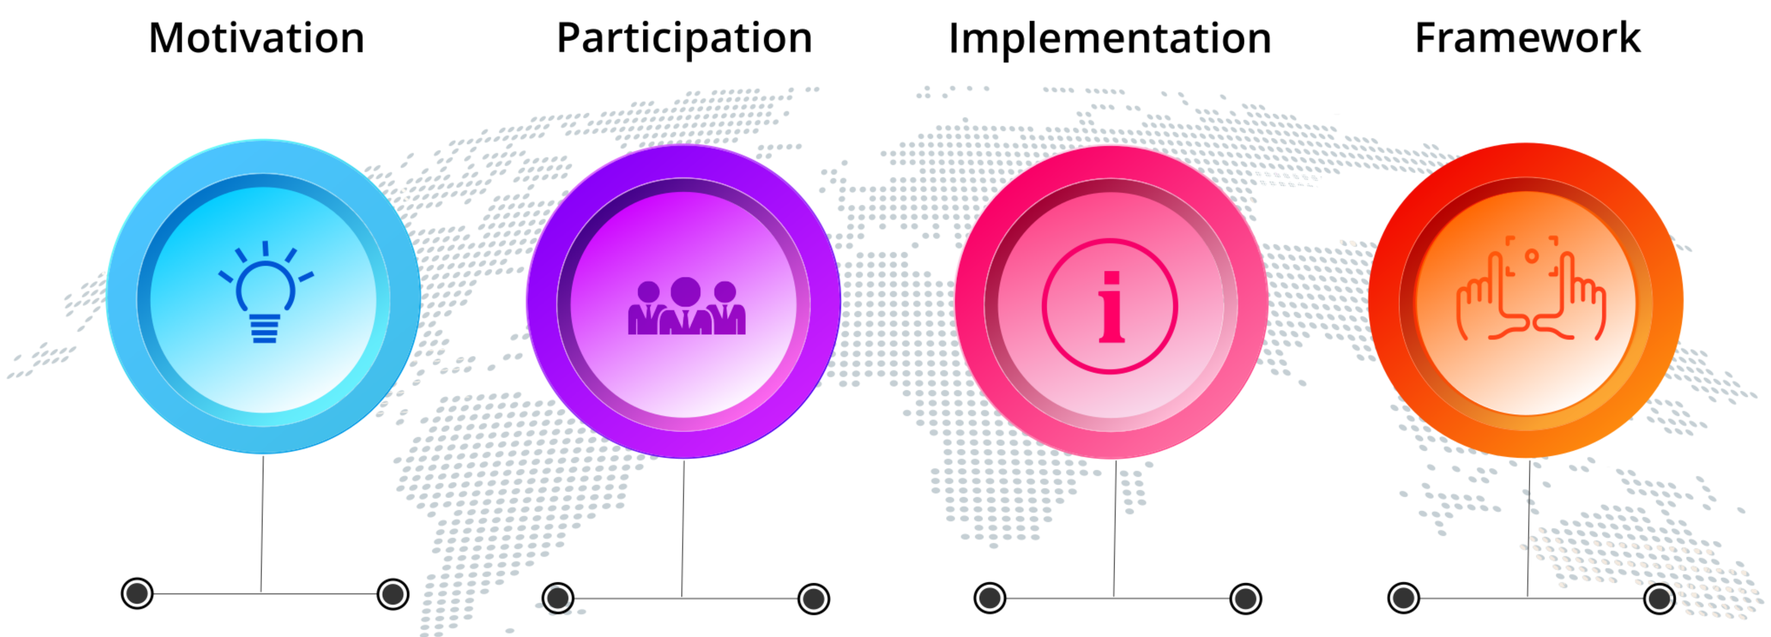
The new Community of Practice for DM/DS Training

ELIXIR All Hands 2022, 7-10 June, Amsterdam, Netherlands

ELIXIR Germany collaborates with the ELIXIR CONVERGE project intending to standardise life science data management across Europe. This is to be achieved through the following activities: 1. Identifying training needs and solutions in data management/data stewardship (DM/DS) 2. Developing best practices guidelines and training materials in DM/DS 3. Capacity Building in DM/DS. As part of this task, the demand to provide good research data management induced the idea to establish a **Community of Practice for Data Management/Data Stewardship Training.**



Motivation

- Create more awareness for the necessity of data management
- Specify common standards in data management training
- Set a universal base level of knowledge with regards to best practices through training in data management
- Encourage exchange of expertise

Participation

- ELIXIR-CONVERGE
- Organisations, projects and people from national ELIXIR nodes
- Life scientists from all over the world, who are interested and involved in DM/DS training

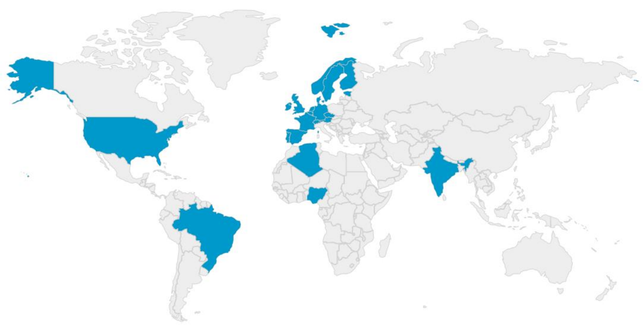
Implementation

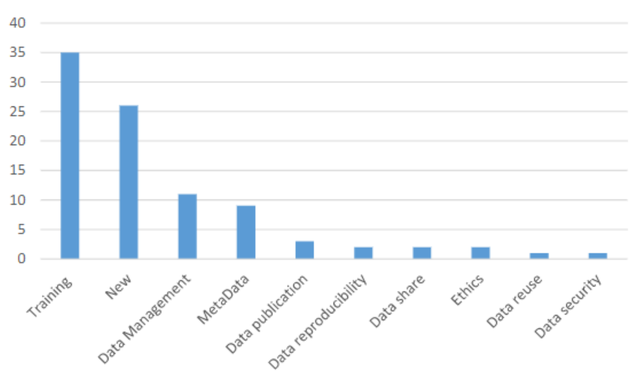
- Developing, improving and expanding training materials
- Motivating to practice good research data management
- Promoting of continuity of research projects due to the adherence of the FAIR Data Principles

Framework

- Regular meetings
  - Sharing information
  - Exchange knowledge
  - Active discussions
- Additional community events (e.g. hackathons, webinars)

Training Community kick-off for DM/DS





In the framework of the European project ELIXIR-CONVERGE, a first **DM/DS Training Community kick-off event** took place in March 2022 with about **90 participants worldwide**, intending to discuss the organisation, and jointly shape the structure of this community.

The participants had a wide range of expertise in DM, but a high number of newcomers were also involved. It is precisely this diversity that is desired and that makes up this community.

More information are available here:

ELIXIR-DE | ELIXIR-DE Training | ELIXIR-DE Flyer

If you would like to join the **Community of Practice for Data Management / Data Stewardship Training** and interested in using this chance for **networking**, feel free to contact us: contact@denbi.de

Ongoing Progress

Initially, generating a comprehensive set of training materials that can be used as a basis for various formats of DM training courses is brought to life in the scope of several hackathon series.

Hackathons

It is now planned to organize a follow-up webinar to the kick-off event to summarize RDM's achievements to date, highlight training efforts in FAIRDOM and DataPlant, and encourage an open round of discussion.

Follow-up Event, 21st June 2022
