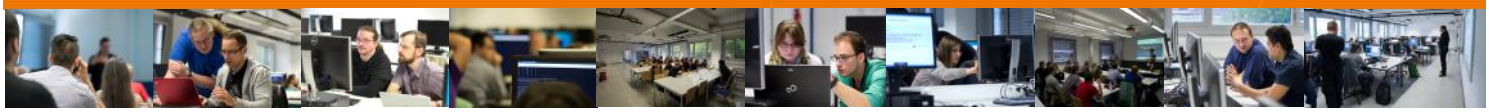
The new de.NBI / ELIXIR-DE training platform in 2022

ELIXIR All Hands 2022, 7-10 June, Amsterdam, Netherlands



ELIXIR-DE training 2016-2021

The German Network for Bioinformatics Infrastructure (de.NBI) is a national and academic infrastructure which, among others, evolved to be a leading contact point for bioinformatics training in Germany and Europe. Selected de.NBI members also run the German ELIXIR node (ELIXIR-DE). The de.NBI / ELIXIR-DE training platform organizes high-quality1, coherent, timely, and impactful training events and provides online training materials on a broad range of topics in bioinformatics. Between 2016-2021, we trained more than 9000 scientists in various bioinformatics applications[2] as well as data management[3].

ELIXIR-DE training 2022 & beyond

From 2022, the Forschungszentrum Jülich GmbH as a member of the Helmholtz Association of German Research Centers has been entrusted with the consolidation of the de.NBI /ELIXIR Germany. In this framework, the training platform has been developed further and now also focuses on the following topics:

- Training collaborations in Germany (e.g. with NFDI) and Europe
- Organisation of Train-the-Trainer courses in Germany and Europe
- Developing new data management training courses in the context of ELIXIR CONVERGE
- Developing new training material in ELIXIR-CONVERGE hackathons
- Training community building (for more details see Poster Schnitzer et al., - Community of Practice for DM/DS Training)

Examples for new de.NBI / ELIXIR-DE training events

Training event	Date
1st de.NBI / ELIXIR-DE and ELIXIR Hackathon for Data Management Plan (DMP) training material	29 March 1 April 8 April 10 May
German Train-the-Trainer Workshop	18-21 July
Boost your Data Management Planning – GCB 2022	5 September
Boost your Data Management Planning – ECCB 2022	18 September
